

Dave Dudley, One More Plane

Standing here at Gate 15 looking at a plane I won't be on
Like No 5-0-3 Lord I wish that I was goin' home
I'd find the seat and settle down put my head against the window pane
Watchin' as we leave the ground knowin' that I'd soon be home again
Can you see me darling just standing here alone
Close the door and it's over one more plane I won't be on

[strings]

The man just said all aboard move to the left and get in line
And girl you know that's what I do if I could find a way to change your mind
Though I'm still in love with you the love you once had for me is gone
My ears hear the screaming sound and that's one more plane I won't be on
Can you see me darling...
Can you see me darling...
