

Dave Hollister, Almost

I was mad as hell at you
Walked out with intentions to
Get up with this honey
I just met on Monday
Cause I knew she was down
We went and had a drink or two
But all I did was think of you
And how I really love you
In spite of all our troubles
So I stop myself

This is straight from the horses mouth
I almost kissed her, almost did her
Almost went there with her
And I thought about you wouldn't bounce

I know it's not that easy girl
but you gotta believe me girl
cause baby I ain't lyin'
I'm just sick of fightin'
And arguing with you
Baby, why can't we be (The way)
The way that we were once before
You weren't getting on mine and
I wasn't getting on your last nerve

This is straight from the horses mouth
I almost kissed her, almost did her
Almost went there with her
And I thought about you wouldn't bounce

I was wrong (I was wrong) I was all wrong
yesterday should've never left you feeling
that way. I apologize hope that you didn't
cry. Baby please forgive me

This is straight from the horses mouth
I almost kissed her, almost did her
Almost went there with her
And I thought about you wouldn't bounce

This is straight from the horses mouth
I almost kissed her, almost did her
Almost went there with her
And I thought about you wouldn't bounce

This is straight from the horses mouth
I almost kissed her, almost did her
Almost went there with her
And I thought about you wouldn't bounce

This is straight from the horses mouth
I almost kissed her, almost did her
Almost went there with her
