

Dave Hollister, One Addiction

****Verse I****

I got this problem and it's something that I can't control
Shortie's street name is smoke
She had me hit from just a kiss and now she's in my soul
Intoxicating, yeah, yeah, yeah
My heart is failin, deep inhailin, baby's burnin my nose
I damn near had an overdose
I need rehabilitation
I must admit I'm shook cause sortie's got me hooked

****Chorus-Repeat twice****

Floatin like a butterfly (I'm still high from the smoke)
Feel like I can touch the sky (girl your dope makes me choke)
Feels so good I wanna cry (let me take one more toke)
I'm in love (just one addiction)

****Verse II****

She's got my world spinnin upside down
Man I'm so high my feet can't even touch the ground
I'm paranoid, I think I'm gonna lose my mind
My lips are burnt because I smoke her all the time
This Philly's got me feenin, twisted, reminiscing bout her ebony face
I need rehabilitation
I must admit I'm shook cause shortie's got me hooked

****Repeat chorus twice****

****Bridge****

She's really got me feenin, put that thing on me
She got my eyes so close together I can hardly see
She got me talkin crazy, walkin funny, staggerin
I can't get enough
Now can't no other Philly do me like you do
I don't need nobody else cause girl I'm into you
These brotha's really wanna smoke on my shortie to
I'm not passin you

****Repeat chorus 3 times and fade out****
