

# Dave Hollister, Reason With Your Body

Oh your body body; Ooh your body body  
Oh your body body Yeah Yeah  
Ooh your body body; oh your body body  
Girl I want you, come on

Come on  
I need you bad as old folks needs soft shoes  
Come on  
I'm drunk off your body like I had to much Absolute, come on  
Come on  
Girl I make you scream like a scary movie on  
Come on  
I'm talking to your body cause your mind trying to be strong

Let me reason with your body  
Let me talk with your body  
Have a meeting with your body  
Cause your mind may not understand what your body needs

Let me reason with your body  
Let me talk with your body  
Have a meeting with your body  
Cause your mind may not understand what your body (come on)

Come on  
I'm a work it like them thugs and hustlers work those streets  
Come on  
Well let me jump your fence like I'm running from the police  
Come on  
Oh let me bounce bounce like I'm hitting switches in my ride  
Come on  
Like I'm trying get out the rain I wanna come inside

Let me reason with your body  
Let me talk with your body  
Have a meeting with your body  
Cause your mind may not understand what your body needs

Let me reason with your body  
Let me talk with your body  
Have a meeting with your body  
Cause your mind may not understand what your body needs

Listen up  
I got your body surrounded don't make any sudden moves  
or you make a bigger mess then you want to

What is your list of demands  
Let me see if I can talk to someone in charge  
I'm trying to understand

Unless the hostage is off  
Your toes, your theighs, your legs  
I'm the negotiator and I'm not to proud to beg  
I can defuse the situation with a little communication  
to let your body go with no hesitation

Let me reason with your body  
Let me talk with your body  
Have a meeting with your body  
Cause your mind may not understand what your body needs

Let me reason with your body  
Let me talk with your body

Have a meeting with your body  
Cause your mind may not understand what your body needs
