

Dave Koz, December Makes Me Feel This Way

Autumn waves good-bye
And the changing of the seasons
Brings a change in me.
I see with different eyes
I get a sense of all of Natures possibilities
Its like the world is new
And precious as a baby
Life is suite as children at play
And love is true and there in every heart
December makes me feel this way
Friends and family
Strangers on the street are smiling at me
Inhibitions disappear
Laughing in the snow
I wish that I could know this feeling
Every moment of the year
The world is new and as precious as a baby
Life is suite as children at play
And love is true be there in every heart
December makes me feel this way
The spirit will guide me
Ever I am lost this sky its going to find me
When I am unsure
It will remind me
Of who I am and I can be
December is inside of me
And love is true in there in every heart
December makes me feel
December makes me feel this way
Life is suite as children at play
And love is true and there in every heart
December makes me feel this way
Woo Woo Woo woo woo woo-oo wooooo
