

# David Ball, I Want To With You

Well I guess I've been traveling light my whole life through  
Thought if you never own nothing much nothing ever owns you  
Until I looked at you I swear I never gave one thought to forever  
Girl I never wanted to  
Find a little spread with a creek running through  
Build a little dream and make it come true  
But now I want to with you girl I want to with you  
Put a little ring third finger left hand  
Stay with somebody who will love and understand  
Girl I want to with you

When a man ain't looking no telling what he may find  
Until I saw the light of your love I was walking round blind  
I kept running with my restless heart thinking that's just the way things are  
Girl it never crossed my mind  
I think it's time to find a little spread...  
[ guitar - steel ]  
Find a little spread...
