

David Ball, When I Get Lonely

Your daddy called you down to the farm
Said he needed the crop in the barn yesterday
Two days gone six days there all I do is sit and stare at a TV
Well I ain't done nothin' yet but baby don't forget how I get when I get lonely
Well I ain't strayed a little bit cause baby you're still it but I'm gettin' lonely

Your sister kept you busy all last week
Movin' her back to Albuquerque New Mexico
Your girlfriend called the week before that
Said she was sad and didn't want to be all alone
Well I ain't done nothin' yet...
(guitar)
I painted the house and I painted the town
Just keepin' busy till you get back around to lovin' me
It's Friday night the phone just rang
It's that girl ole what's her name to say she's free
Well I ain't done nothin' yet...
I'm gettin' lonely don't let me get lonely
