

David Bas, Party Right Now

Let's start this party right now [right now]
Yo, DJ play it so looooud
Now everybody guess the feeling, groovin` it, living it YEA YEA

When the music knocks me out KO KO
And it's like the dance floor clears and we're alone.
Vibrations comin in deep and I'm not runnin
He got my body hummin wont stop until I'm done.
And he gives it to me fast and I give it back faster
I'm a slave and the Dj's my master
First one there and I'm gonna be the last one
Nasty tragic glam disaster
Slow it down and then switch the song up
Gotta see who, who can last longer
What the beat do we can't go wrong with, What the beat do we can't go wrong with.

Ayo ayo
Don't you talk that talk to me I'm in my zone
And I dont need no dance partner I dance alone
If you dont feel me I feel myself I'm on a roll
I got the music in my soul Oh
And he gives it to me fast and I give it back faster
I'm a slave and the dj's my master
First one here and I'm gonna be the last one
Nasty Tragic Glam disaster
Yea I show off soon as I show up
When I take off I never slow up
When I get down I tear the floor up, when I get down I tear the floor up

I look around survey the room, I dont see nobody do you
Nothing holding me down, like I'm on the moon I dont need gravity do you
And we can't worry bout the future now
We're in the moment so the future's now
Nothing existed before we were here, launched into space and now we're stuck in the atmosphere.
