

# David Bowie, I Can't Explain

New feeling inside  
It's a hot certain kind  
I feel hot and cold  
Down in my soul, baby

I can't explain  
Going out of my mind  
Dizzy in the head, and I'm feeling blue  
Things you say well maybe they're true  
I get funny dreams again and again  
Knows what it means, but

Can't explain  
I think it's love  
Say it to you  
When I feel blue

I can't explain, no, I can't explain

You know I can't explain  
I'm going out of my mind  
Well I'm a worried guy  
But I can't explain
