

David Byrne, Girls On My Mind

Seems like ev'rywhere I go
Seems like ev'rything I do
Seems like ev'rything I dream about
Seems like ev'rywhere I look

Well I got girls, girls on my mind
I think about them mostly all the time
Oh - so tell me what you'd do?
Oh - if you were in my shoes?

No, thank you, please, I'm only looking
I don't believe we've met before
I guess I've died and went to heaven
Or else I'm lookin' out my nose

And I got girls, girls on my mind
I think about them sometimes all the time
Oh - well what about tonight?
Okay - what about today?

People say that I am crazy
People say that I am strange
But I don't care about what people say
They can't see inside my brain

I've got girls girls girls girls girls girls in my mind
Ev'ry little girl - stays in my mind
Well I don't wanna know - they're all around my mind
Flying all around - they're all around my mind
Oh - and when I get to sleep
Oh - I pray my soul to keep

I'm the star of my own movie
Honey, I'm the leading man
You might ask yourself - who is that guy?
With the girls upon his mind?

I got girls girls girls girls girls girls in my mind
Ev'ry little girl - stays in my mind
I remember 'em all - they're all in my mind
Long, short 'n' tall - stayin' in my mind

Flyin' all around
All around my mind
Flyin' up and down
Goin' through my mind
Ev'ry little girl
All through my mind
Ev'ry little girl
Stay in my mind
