

# David Byrne, Wicked Little Doll

Wicked little doll, lovely to look at  
Wicked little doll, charming to hold  
Wicked little doll, you are not human  
Wicked little doll, you have no soul

Wicked little doll, I'm not your victim  
Wicked little doll, you need me too  
Wicked little doll, I'll be your partner  
Wicked little doll, can I play too?

Wicked little doll, collapsing beauties  
Wicked little doll, cities in flames  
Wicked little doll, devil or angel?  
Wicked little doll, they're both the same

Wicked little doll, we're chained together  
Wicked little doll, I'm just like you  
Wicked little doll, it's human nature  
Anyone can see you love me too

??? Those guys, some of these guys  
??? We're one big happy family  
??? ...  
??? I love my little dolly  
??? ... I surrender

Wicked little doll, your perfect body  
Anyone can see you're never wrong  
And isn't it a world worth taking over?  
There's a little doll in everyone  
Make a little love, some parts are missing  
Any little song that has will do  
Wicked little doll, you speak my language  
Now I'll always be in love with you

Wicked little doll, Wicked little doll
