

# David Charvet, Leap Of Faith

I, saw you with that look in your eyes  
Did he come back to make you cry  
I am the one to set you free  
I need you  
love you so desperately

[Bridge]

Baby I just need you to take a leap of faith  
Every promise I make Ill never break  
Let me take your hands, Ill lead the way  
Ill wait forever, baby

[Chorus]

Until the stars come crashing down  
Until the the moon no longer shines  
that's how long i'll wait for u  
that's how long i'll wait for u  
u r the meaning to my life  
and untill the end of time  
that's how long i'll wait for u  
that's how long i'll wait for u  
Dont be afraid to get too close  
Im gonna love you like youve never known  
Open your heart and come with me  
I need you, want you, cant you see?

[Bridge]

[Chorus]

And if we are oceans apart  
You will always be here in my heart  
And Ill always wait for you  
Ill always wait for you

chorus

Until the stars come crashing down  
Until the the moon no longer shines  
that's how long i'll wait for u  
that's how long i'll wait for u  
u r the meaning to my life  
and untill the end of time  
that's how long i'll wait for u  
that's how long i'll wait for u
