

# David Charvet, Touch

I hear the words people say  
Now does it really matter  
They say that love is a game  
That never can be mastered

But I believe  
When it comes to you and me, yeah  
Our unity  
Is only getting stronger, if we

Touch, touch  
Move a little closer  
Hush, hush  
Don't say another word  
Just come, come  
Together they can't stop us  
If we build a love around us

Let's take a walk through this maze  
Our hearts are in the center  
So take my hand, don't be afraid  
'Cause we're fine when we're together

'Cause I believe  
I On time your eyes will see, yeah  
Our unity  
Is only getting stronger, if we

Touch, touch  
Move a little closer  
Hush, hush  
Don't say another word  
Just come, come  
Together they can't stop us

If we build a love around us

No matter what it takes  
Or how long I'll wait  
We're meant to be together  
So love will find a way

If we  
Touch, touch  
Hush, hush  
Don't say another word  
They can't stop us  
If we build a love around us

Touch, touch  
Move a little closer  
Hush, hush  
Don't say another word  
Just come, come  
Together they can't stop us  
If we build a love around us

Touch, touch  
Move a little closer  
Hush, hush  
Don't say another word  
Just come, come  
Together they can't stop us

If we build a love around us

Hush, hush  
Move a little closer
