

David Charvet, Touch

I hear the words people say
Now does it really matter
They say that love is a game
That never can be mastered

But I believe
When it comes to you and me, yeah
Our unity
Is only getting stronger, if we

Touch, touch
Move a little closer
Hush, hush
Don't say another word
Just come, come
Together they can't stop us
If we build a love around us

Let's take a walk through this maze
Our hearts are in the center
So take my hand, don't be afraid
'Cause we're fine when we're together

'Cause I believe
I On time your eyes will see, yeah
Our unity
Is only getting stronger, if we

Touch, touch
Move a little closer
Hush, hush
Don't say another word
Just come, come
Together they can't stop us

If we build a love around us

No matter what it takes
Or how long I'll wait
We're meant to be together
So love will find a way

If we
Touch, touch
Hush, hush
Don't say another word
They can't stop us
If we build a love around us

Touch, touch
Move a little closer
Hush, hush
Don't say another word
Just come, come
Together they can't stop us
If we build a love around us

Touch, touch
Move a little closer
Hush, hush
Don't say another word
Just come, come
Together they can't stop us

If we build a love around us

Hush, hush
Move a little closer
