

David Foster, River Of Love

Life after life
Stand before eyes of the world
Each man, woman and child must decide

We hold inside
All the keys to paradise
All nations, all people
All are one

We were born in love and innocence
That's how we came here
We were given hearts to love or hate with
Our time has come
When we can live as one
River of Love
We are moving back to the river of love

Tired walls must fall
That new hearts may be set free
We stand close to the edge of the truth

Old wounds must heal (must heal)
In a fresh equality (forever)
All nations, all people
All are one

We were born in love and innocence
That's how we came here, whoa
We were given hearts to love or hate with
Our time has come (has come)
When we can live as one
River of Love
We are moving back to the river of love

Everyday our lives draw together
Why don't we help each other
This is a chance for all the world
To have what it needs
the freedom of love

We were born in love and innocence
That's how we came here, whoa
We were given hearts to love or hate with
Our time has come
When we can live as one
River of Love
We are moving back to the river of love
We are moving back to the river of love
We are moving back to the river of love
