

# David Gray, The Longest Time

I finally belong  
The lonely night is gone I won't forget it  
And all the love you show  
I gotta let you know  
You won't regret it

Now you're in my heart  
We'll never be apart No-o-o

And it might take the longest time  
Til we're finding the rainbow's end  
But it don't matter rain or shine  
If we're finding the rainbow ...  
Free the love that's burning in my soul

The thorn was in my side In loneliness I cried: "Hey, I'm in trouble!  
I'm punching at the walls  
They're laughing as I fall  
Seeing double"

But now you're in my heart  
We'll never be apart No-o-o  
And it might take the longest time  
Til we're finding the rainbow's end  
But it don't matter rain or shine If we're finding the rainbow  
... Free the love that's burning in my soul  
[x3] ... in my soul Free the love that's burning in my soul [x3] ... in my soul
