

David Gray, The One I Love

Gonna close my eyes
Girl and watch you go
Running through this life darling
Like a field of snow
As the tracer glides
In its graceful arc
Send a little prayer out to ya
'cross the falling dark

Tell the repo man
And the stars above
You're the one I love

Perfect summers night
Not a wind that breathes
Just the bullets whispering gentle
'mongst the new green leaves
There's things I might have said
Only wish I could
Now I'm leaking life faster
Then I'm leaking blood

Tell the repo man
And the stars above
You're the one I love
You're the one I love
The one I love

Don't see Elysium
Don't see no fiery hell
Just the lights up bright baby
In the bay hotel
Next wave coming in
Like an ocean roar
Won't you take my hand darling
On that old dancefloor

We can twist and shout
Do the turtle dove
And you're the one I love
You're the one I love
The one I love
