

David Guetta, Martin Garrix & Brooks, Like I Do

Honey, I think about you
When I'm alone and half past three
I bet you think about it
Does nobody love you like me (like me)
Honey, I think about you
When I'm alone and half past three
I bet you think about it
Does nobody love you like me
Just like me
Like, like me
Just like me
Like, like me
Just like me
Just like me
Honey, I think about you
When I'm alone and half past three
I bet you think about it
Does nobody love you like me (like me)
Honey, I think about you
When I'm alone and half past three
I bet you think about it
Does nobody love you like me
Just like me
Like, like me
Just like me
Like, like me
Just like me
Just like me
Honey, I think about you
When I'm alone and half past three
I bet you think about it
Does nobody love you like me
