

David Houston, Day That Love Walked In

Good morning sun you've been a long time shinin'
There were times I thought you'd never shine again
Goodbye rain I thought you'd never stop fallin'
But like my tears you left the day that love walked in
Hello world it's good to see that you're still turnin'
Cause yesterday I'd swear I saw you end
And heart it sure is good to feel you burnin'
Cause heart you sure were cold till love walked in
Love walked in and two hearts came together
And now that you're here by my side I know that I'll be satisfied
Forever hand in hand we'll walk together
And when we're old we'll both remember when we found each other
And we'll treasure the day that love walked in
