

David Houston, I Don't Love You Anymore

I don't love you anymore not the way I did before
And since you've found somebody new I think it's best
I don't cry and walk the floor I don't love you anymore
The trouble is I don't love you any less
I don't love you anymore for I've got no more love to give
You drained my heart of all its love with every sweet caress
I keep saying o'er and o'er I don't love you anymore
The trouble is I don't love you any less

[piano]

I held you close to me one time kissed your lips and called you mine
Then another came and warmed you with his touch
I cried as you walked out the door I don't love you anymore
That's the truth but I still love you just as much
I don't love you anymore...
