

David Houston, Then I'll Know You Care

If you really love me show me that you love me

If you really love me make me know you care

You can't wrap it up put it in a box so measured by the rule of a broken heart

Love's not put in your heart to stay love's not love till you give it away give it away

Make me feel warm when you hold me make me feel loved when you kiss me

You'll send me to heaven if you'll love me then I'll know you care

You can't wrap it up...

You'll send me to heaven if you'll love me then I'll know you care

You'll send me to heaven if you'll love me then I'll know you care
