

David Houston, Wonders Of The Wine

I found a place that you won't believe a place where your mem'ries fade away
And I'm here with a friend that's so good to me so good I can't remember yeasterday
But it's just one of the wonders of the wine
One of the wonders that keeps me from losin' my mind
If you walked in right now you'd think I owned the world
Cause the women come around just to watch my style
But when the warm red wine is gone and I remember you
It's all that I can do to fake a smile
But it's just one of the wonders of the wine
One of the wonders that keeps me from losin' my mind
But as long as I stay here everything's gonna be fine
And it's one of the wonders of the wine
