

David Houston, You'll Have Love

I'd do my very best for you and every way I can
But I just live from day to day a poor hard working man
You may not have the things you've dreamed about
But there'll be one thing you'll never live without
You'll have love and the heart that won't grow cold
And these two hands of mine will work for you till I grow old
I'll be by your side whatever we'd go through
And you'll have love if that's good enough for you

There'll be no trips around the world are pretty sights to see
You'll just have a simple life but you'll always have me
There may be lonely times I won't deny
But you'll always have one thing money can't buy
You'll have love...
