

David Houston, You'll Have To Read The Book

I can't tell you all about her in this song I couldn't if I did my very best
To describe my love for her would take too long so I'm writin' the book to tell the rest
We met and fell in love in Chapter One when I asked her to be mine she said yes
And heaven was ours in days to come you can read the book and know the rest
Day and night I worked to make a living and sometimes she got lonely I guess
Everything to her I was givin' but you'll have to read the book to know the rest
Now we careful on page three-ninety-fourth it was here our love was put to a test
But it was strong enough to make the score
And you'll have to read the book to know the rest
This book may never have an ending our love is just too strong as when we met
You can always turn back to the beginning and read the book again to know the rest
Just read the book again you'll know the rest
