

David Kushner, No High

Is this as good as it gets?
Or is this all I know?
It feels like the bends
All the highs and the lows

I'm comfortable here in the chaos just like you
I'm begging for more when it wears off oh it's true

Oh, baby, when I love you
Your body feels a little like drug use
It's everything I need but it hurts too
Couldn't even quit it if I want to
I don't want to
Ain't no high better than mine
Ain't no high better than mine
When I love you
And I do

Who's gonna say goodbye?
I don't know if I can be that brave
If it was up to me I'd die
Before I'd ever walk away

I'm comfortable here in the chaos just like you
I'm begging for more when it wears off oh it's true
It's true

Oh, baby, when I love you
Your body feels a little like drug use
It's everything I need, but it hurts too
Couldn't even quit it if I want to
I don't want to
Ain't no high better than mine
Ain't no high better than mine
When I love you
And I do
Ain't no high better than mine
Ain't no high better than mine
When I love you
And I do

Oh, baby, when I love you
Your body feels a little like drug use
It's everything I need, but it hurts too
Couldn't even quit it if I want to
I don't want to
Ain't no high better than mine
Ain't no high better than mine
When I love you
And I do
