

# David Meece, God's Promises/Rainbows In The Night

Deep within this darkened heart of mine  
The Word of God still shines with hope  
Deep within this frightened life I live  
A voice so soft and still grows

And when the sun is hidden and  
The shadows cloud my starless skies  
Amazingly I turn and see a light

God's promises  
Are rainbows in the night  
Shining hope inside  
When shadows cloud my eyes  
His promises  
Are rainbows in the night  
Guiding through the darkest times  
God's promises are rainbows in the night

Looking back on all the roads I've known  
The echoes of the songs I've sung  
Looking back, there's a thread of love and grace  
Connecting each line and space I've known

And all the years I thought were lost  
On empty searching without clues  
Now trace a journey to the highest truth

(Repeat chorus 2x)
