

# David Phelps, God Will Take Care Of You

You dont say a word, but I know youre so afraid  
Trying hard to take a step of faith.  
Youre so confused and youre so alone  
Standing face to face with the unknown.

Every need you have God already knows about it.  
Still He longs to hear from you.  
I believe if you put your trust in Him  
That is where the road of faith begins.

(Chorus)

'Cause if His eye is on the sparrow when it comes to me and you  
There is no place He wont go  
And nothing He wont do.  
Like a mother cradles a child  
His grace covers us somehow.  
So whatever you go through  
God will take care of you.

Change is never easy; its just part of living.  
Theres so much more that we can see.  
A higher place so far above it all  
Is ours when were faithful to His call.

(Bridge)

We dont know.  
We dont have to understand.  
The hows, the whys, the whens  
Give it all to Him.
