

David Usher, Soldiering

Yell me the story of your life
And how you thought you would never fail
Tell me about the plans you had
That you couldn't unveil

And into these things we ought
We would walk until we could not crawl
And underneath the rocks
We used to share that we would never fall

We keep soldiering on
We keep soldiering on
'Til it's done

Winter she came quick
And buried me beneath the ice
In the raw and in the flesh
And in the weeds I was tranquilized

A leopard changes up his spots
I tend to bite my tail
Took you in so far inhaled
'Til I could not exhale

We keep soldiering on
We keep soldiering on
'Til it's done
