

# David Usher, Soldiering

Yell me the story of your life  
And how you thought you would never fail  
Tell me about the plans you had  
That you couldn't unveil

And into these things we ought  
We would walk until we could not crawl  
And underneath the rocks  
We used to share that we would never fall

We keep soldiering on  
We keep soldiering on  
'Til it's done

Winter she came quick  
And buried me beneath the ice  
In the raw and in the flesh  
And in the weeds I was tranquilized

A leopard changes up his spots  
I tend to bite my tail  
Took you in so far inhaled  
'Til I could not exhale

We keep soldiering on  
We keep soldiering on  
'Til it's done
