

Dax, Book Of Revelations

I can't sleep
I keep thinking about this
what if whit everything going on
the world really is coming to an end?
then what?

what is it isn't lie
what if we make it to heaven ad don't get inside
what if we get to gates
and see God on the other side
and he looks is I our face
and says our whole lives we've wasted time
what id we can't go back
what if we can't redo this life and get one second chance
what if our future happiness is memories of out past
while we burn forever haunted by the devils laughs

why
why do we push hem away
and why do the omnes we work to keep never actually stay
why do we focus on tomorrow
and forget about today
and smile in everybody's face and try and act like we're ok.
why do we live this way
why do we hate
why do we fight
why do act like there's time and got more than one life
why
why
why
why
why?
