## Days Of The New, Days In Our Life

I said that I want to It's not what you say, it's all in what you do Nothing has the values of life, I said it changes Changes--unlike any other way Changes yeah

These are the days in our life, yeah It's time for changes
These are the years left behind, yeah It's time for a change

I said that I want to Dead as I want, it's not for me to choose I said that I want to, but my mind changes Don't stare at the old view

Tell me what you can do Get with the times Time for changes So tell me this is true Should I believe in you?

Tell me what you're saying Tell me what you said
