Days Of The New, How Do You Know You?

All I see is all to see Stubborn mind in front of me If you want I'll go away I'll be here some other day

How do you know you?

And I don't feel you now And I don't see you now And I don't hear you now And I don't know you now

How do you know you?

You, yes, I've kept the news from you You, yes it's all in your mind

All I see is all to see Nothing taking over me

How do you know you?
