

Days Of The New, The Downtown

I know a town where people are running
Away from life - it seems always funny
They think they are smart
Don't doubt what they say
Scared of a change
Existing only

To bring me down

Thoughtless in heart - desperate in honesty
Failed from the start - wasted and suffering
Supply them their drugs - just don't take them away
Scared of a change
Existing only

To bring me down

I don't feel like i should even worry about you
But i take the time and you push me away
I don't care too much no more
I always seem to waste my breath
Go my own way

Bring me down
Yeah, bring me down
