

# Days Of The New, Weapon And The Wound

I won't break this  
It took so long to make this  
The life I lead is getting through to me

I won't take this  
Took so long to get rid of this  
Anything is everything to me

What a step in time

[Chorus]  
Running after you  
I don't know where you are  
And I can't seem to get you  
I want you to know me.... yeah.... (alright)

The pain that greets me  
Is a stick that beats me  
Solid dream, hope isn't what it seems

Words I can't miss  
Is a song that sings you  
Missing friend, tomorrow is the end

What a step in time  
Find my place in life

[Chorus x2]

Anything is everything to me  
Anything is everything to me... yeah.... yeah

[Chorus x2]

Yeah  
Don't know where you are  
I want you to know me
