

# DC Talk, So Help Me God (Savadocious Junk Ya

(I got something for you, man)  
(Go for a ride)

Bombarded by philosophies that satisfy the surface  
I flee to something deeper  
At the risk of seeking purpose  
How can I hang in this environmental state of being  
When everything I'm striving for  
Is nothing that I'm seeing

(chorus 1)  
Won't You take my heart, won't You take my soul  
Won't You come and make me whole again  
You, You've got what I need and You never retreat  
Unto You I will concede

(chorus 2)  
So help me God  
To put my faith in You  
So help me God  
Before I come unglued  
Call it my addiction  
I can't get enough of You  
So help me God  
To put my faith in You

Infected by the skin I'm in this starving with desire  
And Jesus ain't the latest thing to come across the wire  
I throw myself at mercy for I am the chief of sinners  
But daily taking up my cross  
Has brought it's share of splinters

You're there when I call  
And You're there when I fall  
Even though I don't deserve it all  
You, You light my way  
Through the night and the day  
And from You I will not stray

(repeat chorus 2)

(vamp)

(repeat choruses 1 and 2)

God so help me  
This is my soul plea  
I'm desperately devoted  
I can't get enough of You  
So help me God

Cause You are the one I love  
Cause You are the one I need  
(I need you)  
Cause You are the one I'm seeking  
(Every single day)  
Cause You are the one for me

(I just walked into a meet in 3...  
And everybody's starin' at me...  
I gotta go)
