

De Heideroosjes, Inside My Head (You're All Dead)

Sun is shining on my head, but it's a rainy day
I'm just walking around and I got nothing to say
I feel so weird but I'm not even drunk
Everybody looks great, everybody but

[Chorus]
Nobody knows what's inside my head
Inside my head, you're all dead!
Nobody knows what's inside my head
Inside my head, I wish you were dead!

All these kids act cool, they call me a nerd
But it's my lucky day, today I can't get hurt
They spit me in my face, yeah, the joke is on me
Please, do it again, I don't mind because

[Chorus]
This naggin' it still continues, it just won't stop
So I keep on smiling, until they drop
My eyes wide open, head up in the air
Everybody looks great, everybody but

[Chorus]
There will be a day, I'm sure that time will come
No goddamn bully has the guts, to call me dumb
All these kids will fear me, they'll act as I will
Get them on their knees, this is my game
