

De Heideroosjes, Mamelodi Melodies

I fell in love
With the beauty of
Mother nature's gift to great South Africa

But it struck me when
I saw those black men
Live township life in Mamelodi East Pretoria

Remains of an unfair system, it was not supposed to last
Black page in the book of stories of the white man's past

We, Dutch white punks
Built up our gear
Hey, we made a difference, rock, rock, rock a black high school!

Yeah, yeah, yeah
Mamelodi Melodies

We drove into
another world and I
could only stare at clouds from burning trash filling the air

And I felt like
A silly tourist on
A cheap trip into other people's daily misery

But I met cool blacks and whites telling me they really try
To fight against their prejudice, look each other in the eye

We, Dutch white punks
Built up our gear
Hey, we made a difference, rock, rock, rock a black high school!

1 for the shine that glows on your face
