

De Heideroosjes, We All Share The Same Sun

Gotta ask, gotta ask, gotta ask ourselves; why do they hate us?
What have I done, what have I done to deserve Jihad?
Maybe you're right, maybe you're right, time for self-reflection
Why should your world be ruled by the US of A?

I've gotta respect, gotta respect your religion and culture
But I was taught, I was taught that's a two way street
I wanna know, I wanna know; why the path of violence?
cause making martyrs doesn't kill a train of thought

We all share the same sun
Sign of the new day begun
We all share the same sun
Let wisdom speak instead of a gun
Gotta ask, gotta ask, gotta ask ourselves; what do we give them?
What have we done, what have we done to feed their point of view?
Maybe you're right, maybe you're right; the unholy cannot see
But the right to disagree is the beauty of democracy

Violation degrades civilization
Communication creates emancipation
