

# De La Soul, Simply Havin

[Pos]

As we go clubbin

Me and my peoples we be lookin and we buggin

off these ladies talkin bout no dancefloor rubbin

'til we supply 'em with at least two to three mixed drinks from the bar

They must be out they mind, them rookies get dismissed

Cause it ain't hard to find, the ladies that can move it

to the latest bassline, attached to the drum

that'll set it off and make the local DJ a star

But can I get a boost from the bass and the treble?

This record ain't for soothin but for raisin blood levels

We simply havin fun but know that some don't like the music

That it promotes rappin, and global gun-clappin

But still promoters packin in the clubs where I'm at

Plus everywhere I go so just realize the fact

That we won't be denied that respect you try to hide

Shit this ain't rock'n'roll - {"cause the rap is in control"} -&gt; Q-Tip}
