

# De La Soul, This Is A Recording 4 Living In A Fulltime Era

(This is a recording) (Life)

POS: Living in everyday is something,  
Something everyday like this is our livin'  
DOVE: Giving something sheer for the crowd is our major,  
Major to the crowd is to hear what we're givin'  
POS: No time to rest, we got work in the studio  
Studio suppliers rest at no time  
DOVE: Showtime is enough when the Soul is performing,  
Performing is the Soul y'all, and it's showtime  
POS: Coping with dates in clubs, can't even lounge,  
Lounge with the homeboys how we are copin'  
DOVE: Scoping new material for Paul to plug high-pitched,  
High-pitched what Paul plugs in and still scopin'  
POS: Bearer of peaceful views to express peace,  
Peaceful expressions why we are bearers  
DOVE: What the Soul tries to project is when existing in rap,  
You're living in a fulltime era

POS:  
Puttin' in spin the rhyme, rappers fear so  
Fear so much of what Pos is puttin'  
Couldn't do better, the punks they don't try hard  
Try hard enough, they don't, so they couldn't  
No joke to what I do inside this field,  
This field to me is filed, there's no joke  
So soak up the fact there's no part-time,  
Part-time rappers at, so soak  
Taking in new ideals leads to new groups,  
New groups to better the Soul, I'm takin'  
Wakin' from days and nights to do my best  
DOVE: Your best gets us paid  
POS: So I'll keep on wakin'  
Wearer of a Plug logo to the dying,  
Dying are rappers who think I'm no wearer  
What I'm trying to say is when dealing in rap,  
You're living in a fulltime era

DOVE:  
Love is to all, to all goes my love  
Dove comes to peace like stand comes to sit  
Stand for the court, 'cause standing is healthy  
Healthy in sense is mentally fit  
Pause for the poets of a new style of speak  
Just here to do the same with no trick  
Grab the Plug Two's live wire, my brother  
And find that you've grabbed my pet boa constrict  
Ring goes the garbage I'm hearing  
Seek for the truth, my brother is tearing  
No time to back-step, 'cause if you back-step  
Look what you stepped in, you stepped in mess  
So look what's around you  
Don't worry for the Soul will find the truth  
About three years from now, you know why?  
'Cause we're living in a fulltime era
