

# De-Lite, Heart Be Still

There's a cause for me to pause  
cause in our love there is a clause  
cause we belong to other hearts  
Hold me back  
Hold me back  
Hold my will  
Heart be still

You seem better than candy  
My sugar dandy  
I've got to stand back from the heat  
Hold me back  
Hold me back  
Hold my will  
Heart be still  
Heart be still

Where we'll go no one knows  
I feel weak when you do speak  
It's like a rollercoaster at it's peak  
Hold me back  
Hold me back  
Hold my will  
Heart be still  
Heart be still

I've got to get back  
I've got to get back  
I've got to get back on my feet  
Just let me say my say  
You're a friend I wanna keep

Where we go no one knows  
Our unsaid love could be a scream  
The finest dream I've ever seen  
Your charm grabbed me by the arm

I've got to get back  
I've got to get back  
I've got to get back on my feet

I've got to get back  
I've got to get back  
Just let me say my say  
You're a friend I wanna keep
