

# De/Vision, Like The Sun

I would die for you  
You are my soul support  
I don't lie to you  
I will take all things you taught  
I get high on you  
You're the most befooling drug  
And I sigh for you  
I would never touch your luck

You don't flee  
Keep me in view  
You see me  
Safely through  
When the cold  
Hurts my soul  
You're like the sun

Want to fly with you  
To a place that we don't know  
I will cry for you  
When the time has come to go

You don't flee...
