De/Vision, Like The Sun

I would die for you
You are my soul support
I don't lie to you
I will take all things you taught
I get high on you
You're the most befooling drug
And I sigh for you
I would never touch your luck

You don't flee Keep me in view You see me Safely through When the cold Hurts my soul You're like the sun

Want to fly with you
To a place that we don't know
I will cry for you
When the time has come to go

You don't flee...
