

# De/Vision, Moments We Shared

Don't come back  
You take my breath  
Long before I die  
I came to see you again  
You make me pray  
For being in love with you tonight

In every moment we have shared  
You withheld all what I deserved  
And left me with my pain  
For every moment we have shared  
You take away what I deserve  
And leave me in despair

Long before I die...

In every moment we have shared...
