## De/Vision, New Drug

I lost my sight when I got stun I never bleeded so Do I slide into vice Till I'm gone?

You're like a dive into the wild Like poems holding me as gentle as a new born child at night

Then sorrow breaks
The silent spell
My mind is clearing up
And takes me back
Into my shell
Back to hell

I hope you
Won't see me through
Like I do
I can't get
You out of my mind
I see still I'm blind
I hope you
Won't see me through
Like I do
I can't get
Me out of this hug
Just be my new drug
