

# De/Vision, Star-Crossed Lovers

Don't lose your heart  
We're made of sterner stuff  
We like a bit of rough  
Nothing in this world  
Can keep me away from you  
Lights up the night like you do

Life goes on  
It holds no fear for us  
Taking the smooth with the rough  
Everything seems familiar  
Weightless like a dream  
Sometimes I can't even feel

Star-crossed lovers  
Like no others no no no
