

De/Vision, To Be With You

To be with you
To be with you again
Don't show your tears
We know this is the end
When I was young
I looked into your eyes
When I was young
I saw that you were mine

To be with you
To be my girl again
The time has come
No future in my hands
When I want love
You see it in my eyes
When you want more
I can see it in your smile

What I'm waiting for
Is to be with you
To be with you again
What I'm waiting for
Is to be with you
Again
