

# De/Vision, You Are The One

The very moment I saw you  
All my yearning took shape  
You're all I ever wanted  
Like a dream incarnate  
We'll be perfect forever  
Me and my good time girl  
we we're too ordinary  
For a perfect world

I am barely hanging on  
Don't let go  
You are the one  
Some are born to pure delight  
I was born to roam the night

While you're killing me gently  
Our lifelines entwine  
We're the stars in our own world  
Unaffected by time
