

Deacon Blue, Love's Great Fears

(R.Ross, J.Prime)

you know the agony of seeing it all slip away
well maybe now you'd be happy just to talk it out straight
slipping away
about the danger of believing in plans in hand
about the role that you have in this delicate plan
slipping away

let's talk it out now
let's name them one by one

love's great fears
can't you see them burn
twist and turn as you walk and learn
love's great fears
can't you see them burn
twist and turn as you walk and learn

you know danger of believing that the summer's gone
and with the fading light the feeling that love is falling
slipping away
if you believe in the dangers that you suppose
you think it can tumble down none of us knows
it's all slipping away

let's talk it out now
let's name them one by one

love's great fears
can't you see them burn
twist and turn as you walk and learn
love's great fears
can't you see them burn
twist and turn as you walk and learn
