

# Deacon Blue, Love's Great Fears

(R.Ross, J.Prime)

you know the agony of seeing it all slip away  
well maybe noe you'd be happy just to talk it out straight  
slipping away  
about the danger of believing in plans in hand  
about the role that you have in this delectate plan  
slipping away

let's talk it out now  
let's name them one by one

love's great fears  
can't you see them burn  
twist and turn as you walk and learn  
love's great fears  
can't you see them burn  
twist and turn as you walk and learn

you know danger of believing that the summer's gone  
and with the fading light the feeling that love is falling  
slipping away  
if you believe in the dangers that you suppose  
you think it can tumble down none of us knows  
it's all slipping away

let's talk it out now  
let's name them one by one

love's great fears  
can't you see them burn  
twist and turn as you walk and learn  
love's great fears  
can't you see them burn  
twist and turn as you walk and learn
